6. This will give you a pop up, leave it empty and click on “OK”

Create a new API key with full access

Warning:

This will create a new API key that allows anyone who has it the ability to do anything you could do. You can improve your security posture by using the [IAM UI to create a service ID API key](#) that limits access to only what your pipeline requires, and then pasting that into the template UI instead. For more information on API keys and access see the [IAM documentation](#).

Name

API Key for developerQuiz-20210407000230347

Description

☐ Save this key in a secrets store for reuse

Cancel

OK

7. Click on “Create”, this will initiate your toolchain.
